Conveyor Types

Plastic Flexible Chain Conveyor

Modular Belt Conveyor

PVC&PU Belt Conveyor

Roller Conveyor

Plastic Chain Conveyor

Metal Belt Conveyor

Plastic Flexible Chain Conveyor

Normally, flexible chain conveyor is made of Aluminium profile and flexible plastic chains. Thanks to the small radius and standard components, it doesn't need too much room. It's also easy to assemble and install. Available width for single rail: 65mm/85mm/105mm/140/175mm. For larger width, more rails is a good choice. It's usually used for food & beverage industry and production line.

Flexible Chain System

90 Degree Type

Double Rail

Metal Belt Conveyor

Wire Mesh Belt Conveyor

Metal Chain Conveyor
Pretty Popular in Glass Bottle Industry

Roller Conveyor

90 Degree Curved,
Powered Conveyor

Logistics Industry

Without Power
